Tolerance on Length	All lengths	+ / - 0.03
----------------------------	-------------	------------

DESCRIPTION: A screw with a coarse thread, extra sharp point with a chip cavity, square socket recess and countersunk flat head of a width 1/3" less than a standard bugle drywall screws.

APPLICATIONS/ADVANTAGES: For attaching wood trim or railing to fences. Type 17 point minimizes the chances of splitting wood. Stainless material offers superior resistance to corrosion. The square drive variety is preferred when greater torque is required during installation.

MATERIAL: Class 305 or equivalent stainless steel

FINISH: Screws are typically commercially passivated.
