TYPE B FLAT WASHERS - ZINC PLATED WIDE SERIES

Description	<p>A thin, flat circular metal part with a centrally located hole. The tolerances of the thickness and outside diameter of Type B washers are tighter than for USS and SAE flat washers. Wide Series are thicker and have greater outside diameter than Type B Regular Series washers.</p>	
Applications / Advantages	<p>For use with low-carbon steel materials. Type B washers distribute load over larger areas than the comparable USS or SAE washers of the same nominal size.</p>	<p>For use with stainless materials. Type B washers distribute load over larger areas than the comparable USS or SAE washers of the same nominal size.</p>
Material	<i>Steel</i>	<i>Stainless</i>
	Low-carbon steel	Class 300 stainless
