

# INTERESTED IN LOCKED-IN PRICING?

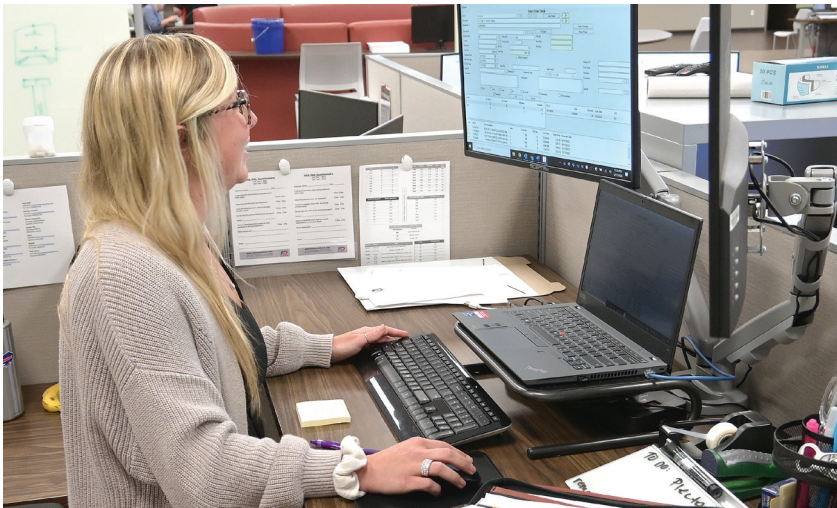

Compile a list of your most commonly used parts. We will stock them for you and lock your pricing. Guaranteed.

## Advantages:

- ✓ **Fixed Cost**
- ✓ No Stock Outs
- ✓ No Increased Inventory
- ✓ Not Billed Until Shipped
- ✓ We can use your part number for seamless integration with your system
- ✓ Your parts can be **packaged how you want it**. From small boxes that are custom labeled to specialized time-saving Kits, FD will partner with you to maximize your workflow.
- ✓ 3 -12 month lock-in programs are available.
- ✓ **Peace of Mind:** Concerned that prices may drop after you lock in? The FD promise... **if prices drop on your Stock & Lock items for any reason FD will honor the new pricing automatically!**

## Don't let this happen!

Your company has just landed a large contract that will begin in 8-9 months. The bid was very competitive and your margins are very tight. After weeks or even months of preparation the paperwork is signed and the contract is yours. 7 months goes by and it's time to start ordering the thousands of parts needed. The only problem is that with the volatile economy the cost of the main parts needed has gone up by 30% or more! The FD Stock & Lock program solves this problem by guaranteeing stock availability with locked pricing from the time you bid until the job completion.

Our team will customize the Stock & Lock program to meet your needs.
