

BUILDING YOUR BUSINESS ONE FASTENER AT A TIME

FASTENERS DIRECT

VISUAL SYSTEMS GUIDE

YOUR SOURCE FOR JOB SPECIFIC FASTENERS
& SPECIALTY SERVICES

FEATURING **FD SYSTEMS** Comprehensive Services Designed to Help Your Business Run More Efficiently

What is FD Systems?

FD Systems has been designed by Fasteners Direct to help our customers procure fasteners efficiently. Not all of the systems will match your needs. The Fasteners Direct team has the knowledge and experience to match your companies specific requirements with FD Systems.

How can I get started?

The first step in providing your company with one of these service-oriented systems will be to understand how your business operates. Your current process will be reviewed by Fasteners Direct and suggestions made as to how FD Systems will benefit you.

Remember:

If you do what you have always done, you will get what you've always got.

Fasteners Direct has found that the following disruptions occur in many businesses on a regular basis:

- Lead time longer than anticipated
- Mixed parts
- Defective parts
- Lack of inventory to sustain production
- Broken boxes
- Un-labeled product
- Back-orders
- Product lost / damaged during shipping

The Problem...

As the global economy places an ever increasing strain on businesses, these types of problems eat away at already thin margins.

The Solution!

INTERESTED IN LOCKED-IN PRICING?

Commit to a blanket order of your common parts and we will stock the parts for you and lock in your pricing.

ADVANTAGES:

- ✓ No Stock Outs
- ✓ **Fixed Cost**
- ✓ No Increased Inventory
- ✓ Not Billed Until Shipped

- No purchase order is needed to start
- Parts are all readily available and there is no payment required until they are used
- FD sets up shelving and monitors stock free of charge
- Price & inventory can be locked for up to 12 months
- Simple scan to re-order option available.
- All items shelved and located at your location, packed in ready to use boxes. Boxes double as shelving bins.
- Re-order cards also available in various colors and styles

Want to take Sure Stock to the next level? There is NO cost for Sure Stock 3.0 and everything is consignment based. Fasteners Direct will jump-start the program for you and include one-month's supply of product.

How many times have you reached for a part to complete a kit and
ONE PART IS MISSING? Don't let that happen again!

What is more efficient? **MULTIPLE PARTS ...**

... OR ONE KIT

Save time and have your custom kit built for you by Fasteners Direct.

With tens of thousands of parts always in stock, Fasteners Direct will organize and package them as needed for your projects.

The FD Custom Kitting & Labeling System allows you to inventory one part number (the kit), instead of the multiple part numbers inside the kit. You will always be on schedule with your project!

We specialize in assembling complex kits.
